So I'm sure I don't have to tell you that you can't be sleeping in class.

I know.

Your mother and I have been talking.

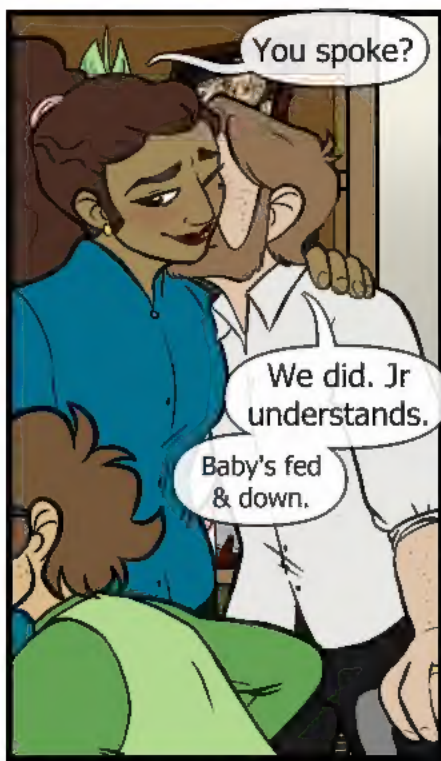

I can see you're trying, Marcus. But I can also see that you're hurting.

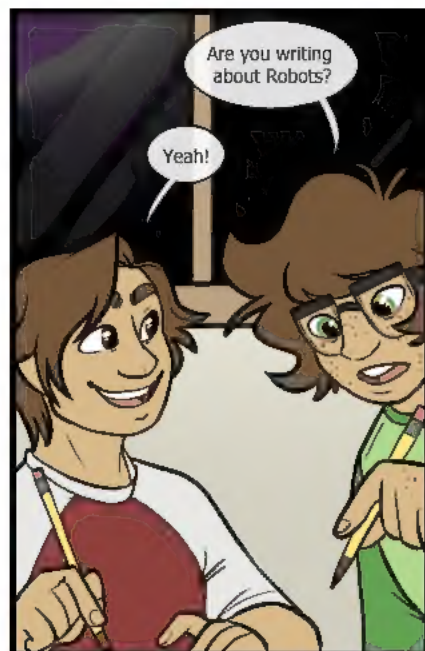

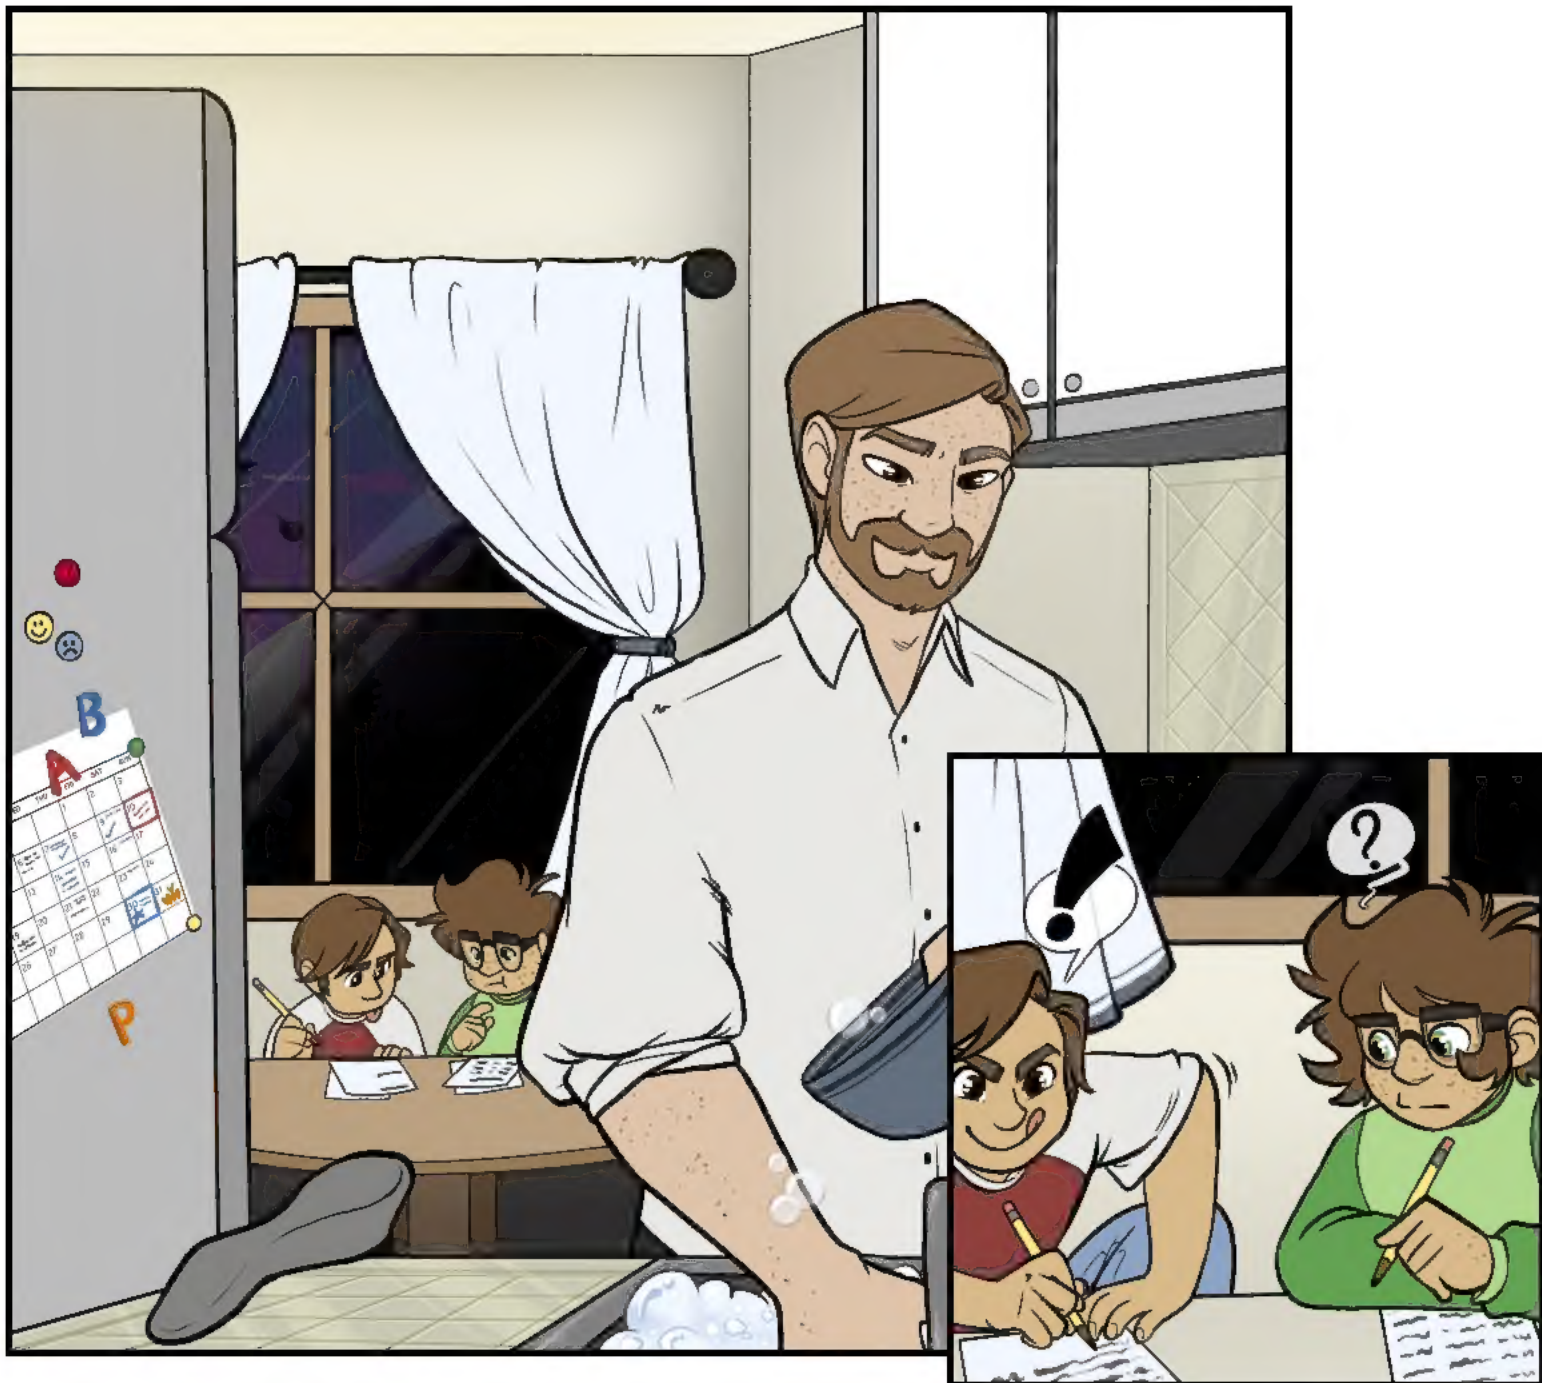

And I don't want you hurting, son.

We're going to take you to the doctor's. Sleeping pills and the sort aren't ideal, but we need to get ahead of this before you get sick.

Before it gets any further out of hand.

Are you writing about Robots?

Yeah!

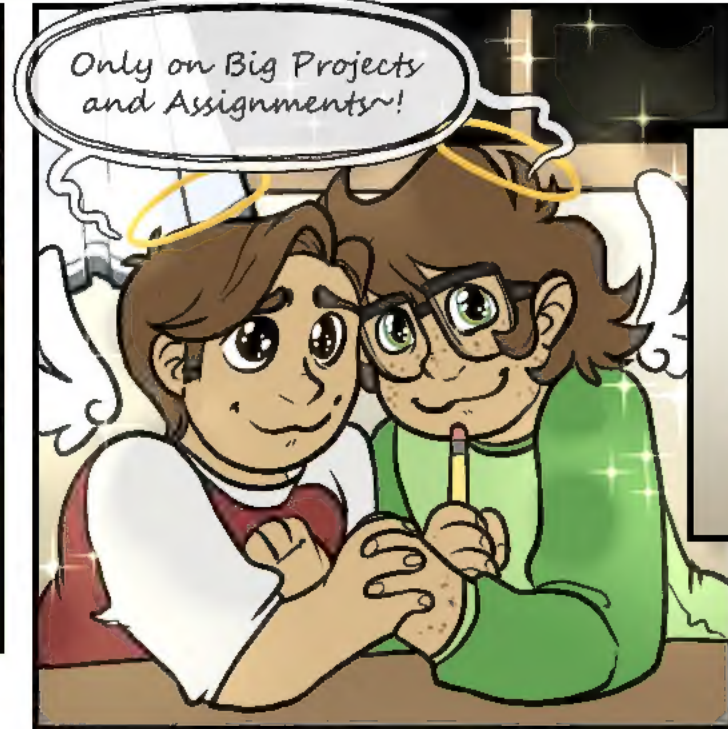

I'll do yours too if you do my math.

Okay!

I thought that Ms Faraway told you two to stop doing that?

Only on Big Projects and Assignments~!

Don't get in trouble.

So what're you kids studying?

Fractions.

Ah yes, fractions...
My old enemy.

Dad, you said that about division too.

Psh

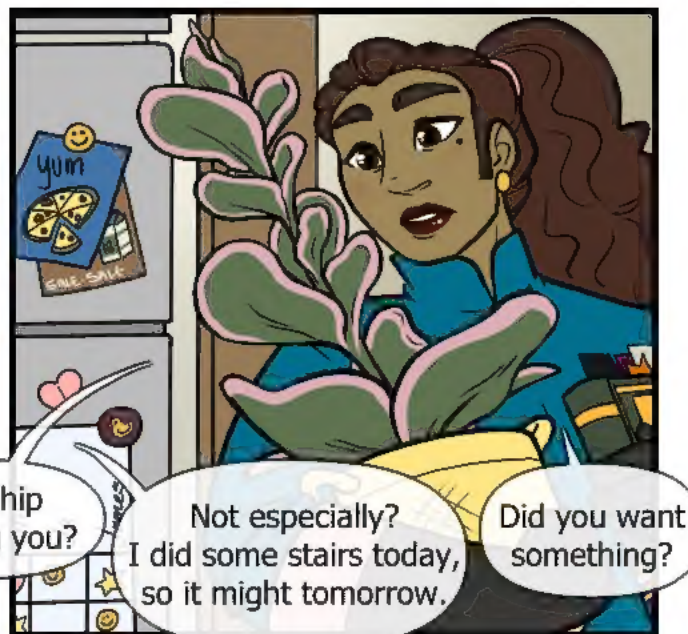

Look, math is a skill. Skills take practice.

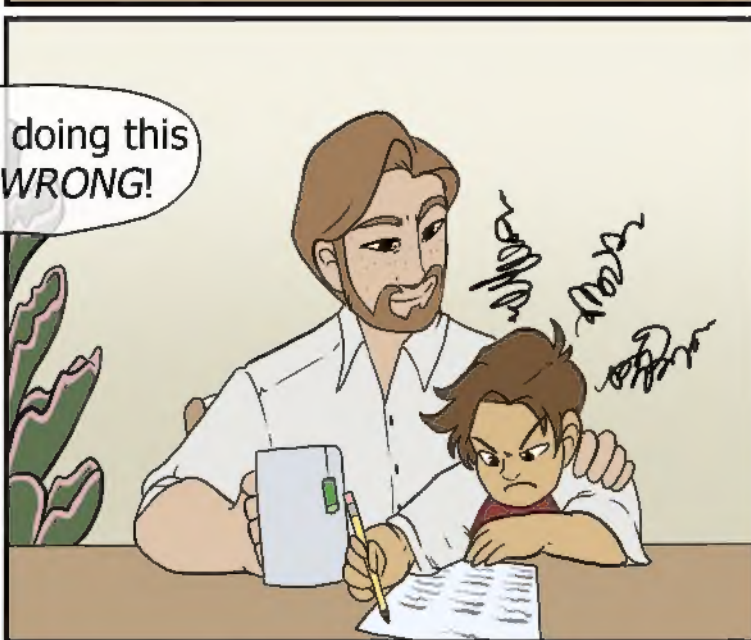

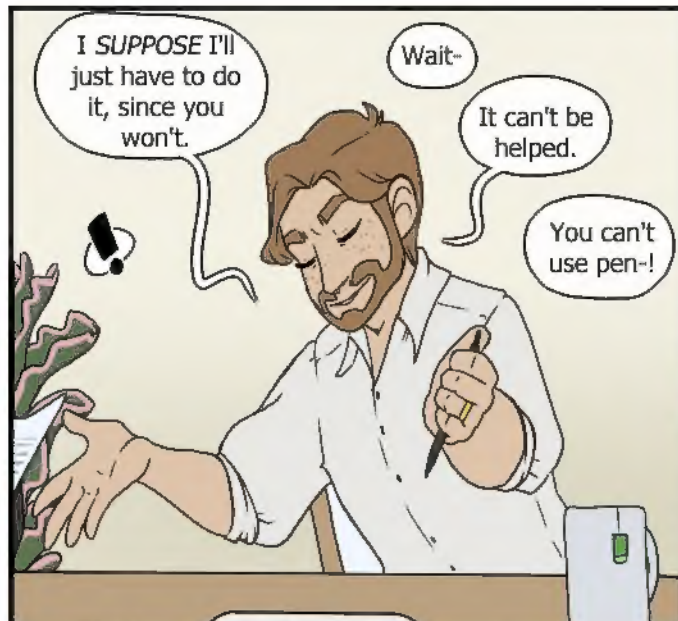

And I haven't had practice in-

James, how did you put it?

What, that math is super duper easy?
Like, do it in my sleep easy?

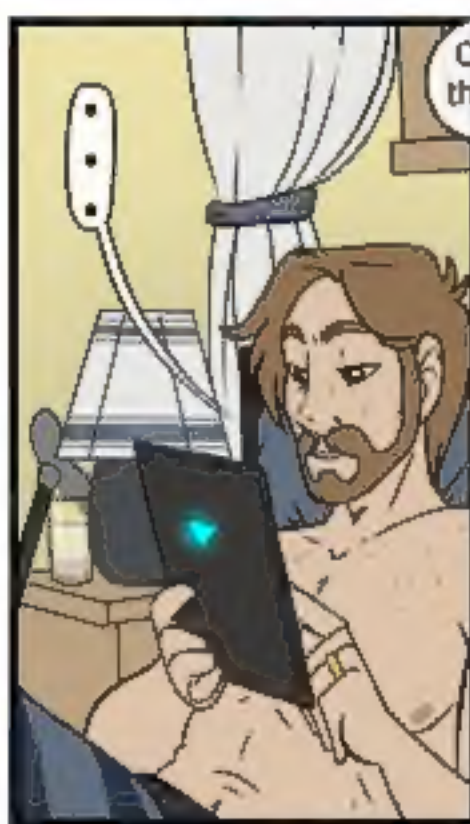

Are we out of bubble bath?

We are.

Don't get more right away. I warned him.

Sure.

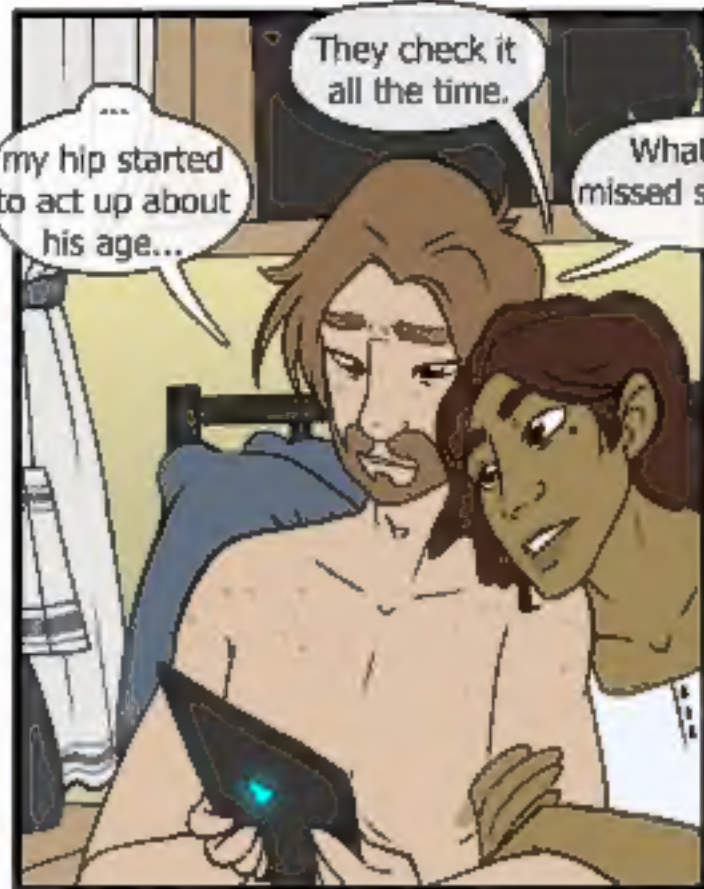

Oh wait, the baby.

She's fine. I checked her while you were with the boys.

Thank you.

Nightmares, biting, fighting, sleeping in class... Could be one of 7 cancers, bullying, or pregnancy

Down from 12 cancers, I see.

They check it all the time.

... my hip started to act up about his age...

What if they missed something?

What if he's in Pain?

Z

... We can ask them to look again.
